

Redefining Terminal Management

TERMINAL ACCESS PORTAL

TAP

Discover the Possibilities

NEXGO's Terminal Access Portal (TAP) provides the fastest, most secure, and truly cost-effective remote device management tool for a wide range of users including ISOs, processors and acquirers. Featuring a user-friendly web-based interface, TAP can be accessed anytime, anywhere, ensuring real-time device management.

Scalable | Dependable | Customizable

Designed to support all NEXGO devices, TAP provides complete end-to-end device management. This robust web-based management tool is installation free and delivers the level of protection that comes with industry standard secure TLS communication. Benefit from a management tool delivering:

- Quick and easy terminal configuration
- Ability to build single or multiple terminal files at one time
- Support for multi-application file build setup
- Automatic file build scheduling
- Multi-level user access

Supported on the following browsers:

Internet Explorer 6.0 or newer

Mozilla Firefox

Google Chrome
