## Mini POS Terminal

The N6 breakthrough product is NEXGO's first smart mini POS terminal. Designed to be compact and light for easy one-handed operation, the N6 is small but powerful. It runs on the Android 7.x operating system and allows for multiple payment types including NFC, magnetic strip, signature capture and 1D and 2D barcodes. It also features a quad-core processor, delivering better performance.

- **SECURE**  
Unparalleled security and compliance, including EMV, PCI PTS, and PCI PADSS.
- **OPTIMIZED**  
Large 5" HD touchscreen allows for clearer customer e-signatures, viewing more content at once, and simpler operation similar to your smartphone.
- **ADAPTABLE**  
Designed to integrate with compatible devices, such as multi-functional docking stations and fingerprint readers, the N6 achieves a variety of functions.
